

ROAD DIRECTIONS TO LA BUFADORA

Take I-5 or I-805 to the Tijuana border crossing (don't forget to get Mexican auto insurance). Your American auto insurance is no good down there. You can buy 48 hours worth at the border, like at the San Ysidro exit on 805. Mexicans are not unreasonable, but if you wreck something, your check or promise to go home and get some money to pay for it is no good. If you are uninsured, they impound your car, and if you hurt somebody, they impound you. Insured? - No problem. If you are not a U.S. citizen, be sure to have your passport.

The distances used below are measured from the border crossing in Tijuana. Your odometer may be a bit different from the one used to measure these distances, so it may be helpful to watch the distances between the locations, as well as the total from the border.
